

Tanishq Pandey

Full Stack Developer | MERN & AI-Integrated Web Applications

Pune, Maharashtra | work.tanishqpandey@gmail.com | +91 62657 01426 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer passionate about building modern web applications and AI-powered projects. Skilled in Java, Python, HTML, CSS, and JavaScript, with current focus on Node.js + AI projects, backend development, and problem-solving using Java.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Frontend: React.js, React Router, HTML5, CSS

Backend: Node.js, Express.js, REST APIs

AI/ML: OpenAI CLIP, Hugging Face Inference API

Database: MongoDB (Mongoose)

Tools & Platforms: Git, GitHub, Postman, VS Code, Cloudinary, Vercel, Render

PROJECTS

College Lost & Found Platform | MERN Stack, Python, AI/ML [\[GitHub\]](#)

July 2026 - Present

- Built a full-stack lost and found platform for college campuses using React, Node.js, Express.js, and MongoDB, enabling students to report, search, and recover lost belongings.
- Implemented AI-powered image similarity matching using OpenAI's CLIP model with cosine similarity through a Python/Flask microservice, automatically recommending visually similar found items for reported losses.
- Designed secure JWT authentication, bcrypt password hashing, and role/ownership-based authorization, with a request-and-approval workflow for secure item recovery.
- Integrated Cloudinary for image storage, developed RESTful CRUD APIs, and implemented automated email notifications for requests, approvals, and recovery status updates.
- Deployed the application using Vercel (frontend) and Render (backend), later optimizing AI inference by migrating from self-hosted CLIP to the Hugging Face Inference API to overcome free-tier memory constraints.

AI Legal Advisor [\[GitHub\]](#)

May 2026 - July 2026

- Built a full-stack AI-powered web application that helps Indian citizens understand their legal rights and relevant laws completely free of cost.
- Developed an interactive chat interface using HTML, CSS and JavaScript with category-based quick access for common legal issues.
- Designed and implemented a secure Node.js + Express backend that protects API keys and manages conversation history.
- Integrated Groq AI API (Llama 3.3) with a custom Indian legal system prompt covering IPC, CrPC, Consumer Protection Act, RTI Act, Labour Laws, Family Laws, Cyber Laws and Constitutional Rights.

CERTIFICATIONS & ACHIEVEMENTS

- Google IT Support** - [Verify Credly Link](#)
- Full Stack Web Development** - [Educative Link](#)
- NPTEL** - Certification in Human Computer Interaction with 85% score (Elite Topper)
- AWS Certified Cloud Practitioner** - Certification in AWS on IntelliPaat Academy

EDUCATION

St. Joseph Convent Ranjhi, Jabalpur | Class 12th
CBSE | Physics, Chemistry, Mathematics

2022 - 2023

Vellore Institute of Technology, Bhopal
B.Tech in Computer Science Engineering

2023 - 2027
